WORK OF CRACKSMEN.

Safe at Siler City Robbed of its Cash Contents.

Special to THE TELEGRAM.

Siler City, N. C., June 30—Our quiet little town was visited by cracksmen last night. The safe of Lamb & Teague, dealers in general merchandise, was blown open at 1:30 o'clock this morning and about $150 in money was taken therefrom. The work was neatly done and evidently was the work of professionals. Up to this hour no clew has been secured as to the guilty parties. Officers of surrounding towns are requested to be on the lookout for suspicious personages. No other property was molested here.

Bicycle Race on the Fourth.

The work of securing riders for the road race next Monday is progressing finely and many inquiries from bicyclists of neighboring towns have been received. The number of applicants is gradually increasing and we have been informed that the limit is nearly reached. Up to the present Greensboro riders have not shown a desire to enter the race and not a single one has put in an application. This is no doubt due to the proverbial "I will if you will" way of doing things. We hope the riders in the city will give their names to Mr. Wingate at once and begin to train for the race. It would not do at all for a rider from some other town to come in and carry off the prize, and to keep them from doing so our bicyclists must begin work at once and in earnest. What the prizes will be has not been determined but we are assured that they will be worthy of the winning.

Serious Accident.

A very serious and probably fatal accident happened yesterday to Ernest Mason, colored, while trying to board a train near the railroad crossing on East Market street. He had started out to Proximity and intended riding on an outgoing train. When he tried to board the train he was thrown to the track with such force that his right arm was literally crushed from elbow to shoulder. Drs. Stamey and Richardson were summoned and found it necessary to amputate the whole arm. The doctors do not think the wheel passed over the limb but that Mason's elbow struck a crosstie near the rail and the weight of his body crushed the arm. It was amputated at the shoulder joint and though Mason was much better this morning the doctors think that as the wound was so near the body it will prove fatal. Mason is about 19 years old.

The Bicycle Parade.

Those who desire to participate in the bicycle part of the grand parade on the Fourth of July are earnestly requested to send their names to Garland Daniels who will have charge of that division of the procession. Any one will be at liberty to join the parade even at the last moment but it will be better to send in the names that those in charge may know upon what to depend. It is especially desired that as large a number of ladies as possible take in the parade.

Those who are supplied with bicycle costumes used in the bicycle drills given hitherto are requested to wear them. Flags should be worn if obtainable. The cyclists will meet at Daniel's sporting good establishment. From the hundreds of wheelmen and wheelwomen in Greensboro it should be easy to turn out an imposing array.

Taylor Place Incorporated.

The sale of the Taylor place, which was noted in yesterday's Telegram, was purchased by a syndicate of Pennsylvanians, through Mr. Samuel P. Langdon, of Philadelphia. The secretary of state yesterday incorporated the company under the name of "The Taylor Place" with a capital stock not to exceed $100,000. The business the company will conduct is tha tof mining various ores.

Madrid, June 29—The general public is very bitter against England, because of her supposed unfriendliness regarding Admiral Camara's squadron. The subject is warmly discussed in all public places, though official circles are mute.

Watson to Sail on the Fourth—The Texas Goes Along—Armed Tugs Going to Key West.

By Cable to THE TELEGRAM.

General Lawton's headquarters, five miles east of Santiago, Wednesday—The troops spent yesterday in looking for the enemy and participated in frequent skirmishes. General Shafter with a small escort went almost to Caney, northeast of Santiago to which place a majority of the Spaniards retreated. There was only a small number of Spaniards there and it is taken to indicate evacuation. General Shafter will take possession.

Monday's Ball Game.

The ball players have put in some good work this week and if the scalps of the Reidsville team are not dangling at the belts of Greensboro players those who know say they will be greatly disappointed. The Reidsville team will bring a large crowd of rooters along with them and promise to make the game lively. The game itself will doubtless be close and interesting and enjoyable to any one who likes the national pastime. The boys want your encouragement and your presence at the game on Monday. Let everybody who can go out and cheer our boys to victory.

The Lawn Party Moved.

On account of the illness of Mrs. Walter Williams, who lives near Mrs. Mendenhall's the Centenary Epworth League will have their lawn party in Mrs. R. M. Phillips' yard on South Elm street. There will be plenty of seats provided and the committee has made arrangements to furnish some excellent music for the occasion. These are working young people and will leave no stone unturned to make their lawn party a success. Go out tonight and help a good cause. Don't forget the place.

Card of Thanks.

At the request of the writer we publish the following cards of thanks:

NOTES FROM HIGH POINT.

The Local News from Our Neighbor Briefly Told.

TELEGRAM BUREAU, HIGH POINT, N. C., June 30, '98.

The most important real estate deal of the week was the purchase of the Mount Vernon Roller Mills by Mr. Dongan Davis, who we learn will assume active management of the mill. Mr. Davis is a conservative business man pays strict attention to whatever he is engaged in, therefore the extensive patronage this mill once enjoyed will doubtless be renewed.

The scarcity of vacant lots suitable for building purposes in a desirable part of town can no longer be argued against High Point's growth, with the opening up of the tract of land in the city by Mr. M. J. Wrenn and the dividing of the same into 150 desirable building lots places within the reach of every mechanic the opportunity to own a home and with the hands of the High Point Improvement companies in the eastern and western part of the city one can find property contiguous to his place of employment at a reasonable price.

The return to the manufacturers of the soda fountain at Flagg's drug store, from which during the past year has issued many draughts of cooling beverage for the comfort of our people, is a source of regret to the general public, especially at this season of the year.

Every business man and bicycle rider should bear in mind that on and after tomorrow every check and draft must bear a stamp and every bicycle must stay in the "middle ob de road."

Rev. T. J. Ogburn, of Greensboro, will preach in the Methodist Protestant church Sunday. Mr. Ogburn is corresponding secretary of the foreign missionary society and a prominent and able minister and is always a welcome visitor to our city.

Claud C. Barbee, the regular Telegram correspondent at this place, left this morning for a week's vacation in the mountains of Western North Carolina.

State Central Committee.

The new democratic state committee had a long session last night, not adjourning until 1 o'clock. The election of F. M. Simmons as chairman and the re-election of John W. Thompson secretary gives special pleasure. George H. Brown withdrew his name from the nomination for the chairmanship. Simmons made a ringing speech. He has been chairman before and certainly filled the position with zeal and ability. The following were elected the central committee: Cyrus B. Watson, James H. Pou, T. J. Jarvis, R. J. Brevard, E. J. Hale, T. F. Davidson, J. S. Carr, E. C. Smith, J. R. Webster, I. E. Green, James A. Lockhart, John S. Cunningham, Wilson G. Lamb, N. B. Broughton, Robert L. Holt, Furney Green, George Warburton, Claudius E. Foy, J. H. Weddington, C. C. Lyon and R. R. Cotten.—Col. Olds correspondence.

The World's Largest Locomotive.

Material has been ordered by the Santa Fe for the largest locomotive ever built. The engine has been designed for mountain climbing and it is said that the big Player engine and those built for the Santa Fe by the Dickson Locomative Works will be but playthings when compared with this giant locomotive.

The engine will be built by the locomotive department of the Santa Fe shops in this city. Among its features will be a boiler built of one-inch boiler steel and cylinders whose dimensions will be 12 by 32 inches. It will have no "pops" as they will not be required. No fireman living would be able to build a fire that would create enough steam to burst the boiler of this mogul. The engine will have ten drivers, and it is estimated that it will be able to haul a third larger load than any engine the Santa Fe now has.

It is not known when this greatest of moguls will be completed, as the material for its construction has just been ordered, but it will not be until some time late in the summer or early in the fall.—Topeka Daily Capital.

An Unusual Fly Trap.

An unusual and most novel sight was shown yesterday in the window of Thomas' shoe shop, next to Stamey & Grissoms' drug store, in South Greensboro. Fly paper was a discount at that place yesterday and will probably remain so. A mouse was in the window and was catching flies and and eating his afternoon meal. Quite a crowd gathered around the window but his mouship continued to catch the insects until he had eaten a hearty repast. The oldest inhabitant was dumbfounded and could not remember a single similar instance.

CORDON OF STEEL CLOSING

Shafter Strangling the Doomed City of Santiago.

CAMARA IS PERMITTED TO COAL

Furious Cannonading Heard—Spanish Offical Report—Daily Sessions of Cabinet—Regiment Camps.

By Cable to THE TELEGRAM.

Playa del Este, June 30—The American forces under Shafter now occupy Caney, which is two miles northeast of Santiago. General Linares ordered the evacuation of the place as the Americans advanced last night. The Spaniards fled to the pretection of the city defences. The Americans took possession of the works and tonight General Shafter will establish his headquarters there.

SHAFTER MOVES TO THE FIELD.

Camp Juragua, Wednesday—General Shafter decided today to change his headquarters and will take to the field. He will occupy a tent tonight with General Wheeler and will continue to occupy the tent until it is decided where the permanent headquarters will be located. Juragua will will cease to be the headqnarters of the army entirely.

The camp will probably be used as headquarters for the medical and commissiary departments after General Shafter leaves. A sufficient force will be left to guard against the probability of attack. It is probable the force will be selected from the volunteers. Six thousand more troops are now on their way from Tampa. Practically the entire fighting force will swing into Caney from Aquadores making this point the base of operations as a railroad to connect it with Santiago is being rapidly pushed by the engineers and a large force of troops. The completion of the road will greatly facilitate the movement of troops and supplies. Siege guns were landed at Baiquiri last night and have been started to the front.

SPAIN'S OFFICIAL REPORT.

Madrid, June 30—The official Spanish reports from Havana with regard to the operations at Santiago state that the American forces under the protection of the fire from the warships advanced from Siboney on Tuesday last but immediately retired on exchange of shots with the Spanish outposts. The report adds that the Americans were not successful in landing their stores and guns.

An Excellent Showing.

At a meeting of the directors of The Piedmont Bank on yesterday a semi-annual dividend of 3 per cent. was declared and 2 per cent. added to undivided profits. The policy of this bank has always been very conservative, which is shown by the steady increase in its surplus funds. The business for the past six months has been most gratifying and shows a steady growth.

REIDSVILLE HAS SMALLPOX.

Dr. Wertenbaker Says it is a Genuine Case.

Special to the Telegram.

Reidsville, June 30—Contrary to the report of yesterday it has developed that there is a genuine, though mild, case of smallpox here. Dr. Wertenbaker, the smallpox expert of the United States marine hospital corps arrived here this morning in response to a telegram and after examination of the negro suspect pronounced the disease smallpox in a mild form. Every precaution has been taken in accordance with Dr. Wertenbaker's instructions. The negro has been completely isolated and every person known to have been exposed to possible contagion have been quarantined. A large number of colored people living on the outskirts of the town have been quaranteed. Compulsory vaccination has been ordered and no fear is entertained that the disease will become epidemic.

WHO PAYS THE PIPER?

Major J. C. Courtney, of the Western Union Telegraph Company, announces that on and after the first of July no messages will be received at the office for transmission unless they bear a one cent internal revenue stamp. —Atlanta Journal.

Continuing, with smug complacency, the courtly Courtney thus demonstrates:

"Why, last month's 'sent' list from this office was over three hundred thousand messages, and so you see that if the company undertook to pay the postage on all those messages we would soon be bankrupt."

What applies to Atlanta applies to every other office of the Western Union Telegraph Company. We confess that we should like to see this matter tested in the courts. The law does not make it clear upon whom the tax is intended to be imposed. It will remain, therefore, for the courts to decide whether a telegraph company can refuse to send a message until it has been stamped. There is no institution better able to bear the tax than the Western Union Telegraph Company and it might be worth the while of several firms or individuals who are forced to use the company's lines largely to make a test case, and so decide whether a man who does not happen to have a one cent internal revenue stamp on his person can send an important message before providing himself with that requisite. Mr. Courtney states that the agents of the company will not be permitted to keep the stamps, and a great deal of annoyance and actual loss may therefore result, since it may be impossible to get the stamp when it is possible to send the message. The ordinary citizen has been pretty well provided for in the way of taxes in the other sections of the bill, and if there be any way to make the telegraph companies contribute their just share to the support of the war it should be found. The Western Union Telegraph Company is about the biggest all round cuss that has to be dealt with: it grinds its employees on the one hand and gouges its patrons on the other to pay suitable dividends on stock largely watered. By all means give it the patriotic pleasure of paying the tax.

Spain is offering very good material for a practie game.

The water supply of Santiago has been cut off—but water is not the imperative necessity for purposes of Spanish victory.

The opportunity to shoot at our fleet and hit our army is one that will not fail to commend itself to Spanish marksmanship.

The always esteemed Biblical Recorder rebukes 'em in the following quite choice and very fraternal language:

"The very blatant and quite idiotic criticisms of General Miles, the virtual head of our armies, cannot be too severely condemned. He is a soldier, and a good one. He arose from the ranks to his present position. In the Civil War and in Indian wars he was tried to the utmost and proved fit. And now because he is opposed to invading Cuba in the face of yellow fever, because he would save our men from the horrors of an epidemic, ten thousand little papers are sneering at him. Meanwhile the policy of conducting the war according to the wishes of the newspapers grows grandly less likely."

And so there are several hundred other men in this country who have been "proved fit" in actual war; but it does not follow that they are therefore qualified to be commander-in-chief of our armies. As to the war, the Recorder is right. Like John R. Smith, it gets itself conducted without reference to what newspaper men say about it. Meantime those who prefer their soldier without the private car and half-dozen-valet attachment will bear the very severe condemnation of the Recorder with what equanity so sore a tribulation may permit.

General Shafter's plan to take Santiago by siege instead of by assault is eminently sensible. It is only a matter of a few weeks at most and thousands of lives will be saved by it. Spain is playing a waiting game but playing into American hands for all that.

The democrats of Pennsylvania are having a hard time in choosing a candidate for governor. It would seem that the one requisite is, in the slang of the ring, the ability to "stand punishment."

If all those German ships have gone to Manila merely to look on, they could not have found a man who can better show them how the trick is worked than Admiral Dewey.

The Spaniards in Santiago have not found it necessary to ask the Americans, "What'S'hafter?"

General News in a Nutshell.

George Elbers, the Egyptologist and novel writer, is dangerously ill at his home in Bavaria.

Hans Makart's monument in the Vienna city park has just been unveiled. The painter's son made a speech on the occasion.

Sulby parish in Northamptonshire made the following return to the County Council's request for parish documents: "No church, no parson, no tithe, no public, no property, no documents."

First Trinity won the lead of the river at Cambridge this year from Trinity Hall, which had held the position for eight successive years. Before that Jesus College kept the place for 10 years.

German war telegrams from Spain are untouched by the censor because no Spanish official could be found who understood the German language. So at least says Mr. Dillon in the Contemporary Review.

Edelweiss is to be protected by law in the Austrian Alps. The emperor has signed laws passed by the Diets of Styria and Carniola forbidding the removal of the plant with its roots, the sale of it to tourists and exportation in large quantities.

The bicycle has become almost as popular among the upper classes in Austria as in this country, and most of the members of the Reichsrath ride to and from the Chamber, a special room having been set apart in the legislative hall for the accommodation of their wheels.

Boston's Fourth of July oration this year is to be delivered by a clergyman of the Roman Catholic church, Rev. Denis O'Callaghan, of South Boston, who has been named by Mayor Quincy for the post of honor. Father O'Callaghan is widely known in the Hub for devotion to his country as well as to his church.

The first alligator found in the Colorado river in many years has been captured in a lagoon below Yuma, Arizona. The saurian was roped, cowboy style, while sunning itself on a sand bank, and was tied up in the same manner that a wild bull would have been handled. It measured 11 feet in length and 38 inches around the thickest portion of its body.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. Baby's Face.

Dexter, Granville Co., N. C.,
March 30, 1898.

MRS. JOE PERSON,
Dear Madam—About the last of December there appeared something like heat on our baby's face. On the fourth sunday in January his face and head were filled with running sores and he suffered severely. We were satisfied the dreadful disease was eczema. On the above mentioned day Rev. K. D. Holmes and Mr. Herbert E. Crews recommended to us in the highest terms, Mrs. Joe Person's Remedy. With the great confidence we had in these gentlemen, we proceeded at once to use it. Two months later, the fourth Sunday in March, Rev. Mr. Holmes saw the same child and could scarcely recognize him. The child is seven months old, his face is well, and there are only slight signs of the disease about his head. He is the picture of health and is hearty and strong. We gladly recommend Mrs. Joe Person's Remedy for all forms of eczema, and think that it is the bast blood purifier on the market. With best wishes, I am,
Your friend.

OUR MARINES AT CAMP M'CALLA

They Are Anxious for Orders to Capture the Spanish Garrison.

Siboney, near Santiago de Cuba, June 27—The first battalion of marines at Camp McCalla, Guantanamo Bay, are displaying the greatest anxiety to march upon and capture the Spanish garrison at Calmanera. They say that, with the help of the Cubans, they can easily do it in half a day, but as yet the army and navy officers refuse to give their consent. The men are anxious to wreak vengeance on the Spaniards for the death of their rades, and they will receive orders to move against Calmanera with enthusiasm.

There is no sickness among the marines. Those of the battalion who were wounded are now nearly well, and will be in condition to fight again soon.

No Peace Just Yet.

London, June 27—The latest peace talk is contributed by the Vienna correspondent of the Chronicle, who says he has learned from an authoritative source that Spain was unofficially sounded as to whether she was prepared to ask for peace. The reply was that she would only request mediation after a decisive defeat. Hitherto she had seen no reason to ask for the good offices of the powers.

U. S. Postoffice at Baiquiri.

Baiquiri, June 28—The first United States registered letter and money order postoffice in Cuba has been established at this place by Mr. L. Kempner of the New York postoffice. The office is equipped for doing business of a city of 200,000 inhabitants.

Mr. Kempner will take possession of the Santiago postoffice when the city is occupied by the American troops.

Sandusky, Ohio, comes to the front with a genius who has discovered and applied a process of embalming the bodies of dogs. Ten weeks have now elapsed since the death of the canines upon which the initial experiment was conducted, yet the embalmed remains, in the woods of the Sanduskian, "emit no odor," nor has there been any "perceptile shrinkage."

A Characteristic Incident of War.

The headlines in the morning papers recounting the daring dash of the "Rough Riders" furnished an interesting theme for the passengers on a Cambridge car which left Harvard square at 10 o'clock yesterday morning.

Two men boarded the car near Cambridge City Hall, the elder quickly buying a morning Globe to get the news. His eyes had scarcely scanned the first page before agonized groans were heard, and the next instant he said: "My God, my boy is dead! I told him not to go, but he was bound to go to the front."

The man's companion pulled the bell, and after the car came to a full stop helped the heartbroken parent from the car. He was deathly pale and tottered rather than walked, assisted by his companion.

The man's name could not be learned, but some one had heard him talking about reaching town only yesterday and also commenting on the class-day exercises at Harvard, so it was taken for granted that his son must have been a Harvard man.

It was a touching scene and furnished the passengers with a realization of what war means to many a saddened heart.

Pops Nominate Dockery.

Wadesboro, N. C., June 29—Oliver H. Dockery was nominated on the fifty-seventh ballot over Keith and Shaw by the populist convention for the Sixth Congressional district today. Keith refused to make it unanimous and stated that he would not vote for Dockery unless he is a genuine reformer. The attendance was small and there was no enthusiasm. Populism apart from republicanism is dead.—Morning Post.

gives good blood. It is a nerve strengthener and restorer, the efficacy of which cannot be over-estimated; when it is learned that its absolute freedom from poisonous drugs or opiates, makes it safe for use in the hands of sick or inexperienced persons, there is an increased appreciation of it. JOHNSTON'S SARSAPARILLA is a specific for impoverished or impotent nerves; it feeds the nervous system to high health, provides for physical and brain endurance, cheerfulness, happiness and energy.

Our thirty-six page illustrated book contains some interesting pages on Nerve Exhaustion. It is free for the asking. Quart bottle, $1.00.

and we are expectantly waiting to hear of a great battle, the result of which many think will be practically the end of the war, as We Americans will tolerate no thought but Victory, But while our brave boys wage battles for the freedom of down trodden Cuba, the children at home must be clothed. As the season advances, naturally our profits grow less. We can't sell summer goods in winter, and for that reason if you will give us a call we will make you some interesting prices in **Children's Clothing.** Ages 3 to 16. The Serried Ranks of War.

This was a warlike day locally. This morning two companies of colored troops passed through from Concord and Charlotte en route to Fort Macon. At noon three more companies of colored troops were standing at the depot waiting for their train to pull out. One of the latter was the home company. The other two were from Winston and Statesville. About fifteen hundred people were at the depot to see the home company off.

While the throng was gathered a train of ambulances and gun carriages passed through going south. This train was run in several sections, two sections being loaded with mules for the Porto Rican expedition. There were nine hundred and seven mules from Camp Alger. In addition to this several carloads of supplies passed through. One spectator after eyeing the movements for a time remarked with deep feeling: "I swan the Spanyerds better look out now; them men means business." The colored citizens were present in large numbers to bid the local company good bye and to see the visitors.

Notes of The Prowler

The scorcher, as the unfortunate individual is called who insists on riding the wheel with "drop" handle bars, and at a good pace, is a very Ishmael among his kind. The nervous pedestrian dodges and mutters curses as he passes, the driver purposely gets in his way, while the wheelman of perpendicular pose swerves from the path of his tinkling bell. In the joke books he ranks Weary Willie, Jacob Cohen, Rastus Johnsing, and General Blanco.

***

As a matter of fact the position of the scorcher is the most rational of all riders and as a rule he is much more graceful on the wheel than the "upright" rider. A single afternoon devoted to observing passing cyclists will convince the impartial observer of the truth of this statement. The average upright rider propels his machine very much as the expert swimmer "treads water." His saddle is generally six inches too low and his knees shoot upward at every revolution of the pedals in a way to decidedly mar the beauty of the procession.

***

The scorcher on the other hand leans forward, bringing his weight directly over the pedals, his position forces him to adjust his seat properly, while at the same time it enables him to propel his wheel with half the exertion required in the upright position. No wheelman who goes for a ride over the country roads will ever take any but the "scorcher" pose after he has once tried it. All of which shows that in wheeling, as in other things, there are two sides to the question, and the choice is between a crooked back and crooked legs, with ease and possibly grace in favor of the former.

***

Not long since a countryman with military intentions approached the recruiting officer with a view to enlisting. "Do ye git three meals a day?" queried Reuben. "You do when you can get them," replied the officer. "Git yer close too?" "Yes, a pair of pantaloons." Well, sign my name, I'll jine." The officer gravely enrolled Reuben. The recruit waited expectantly for a few minutes and seeing no move to replenish his wardrobe asked with some impatience, "Well, whin't ye gimme the pants?"

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by C. E.
